This may include one-to-one meetings in person or via online resources such as Teams, presentations, speaking to professionals associated with the application, assessment and discussions. However, TTD recognise that for a variety of reasons this may not always be possible, and every effort will be made to ensure the candidate has the opportunity to achieve the requirements of the assessment process.

Candidates will keep in regular contact with the centre (TTD) and carry out activities deemed reasonable to for fill the requirements of the assessment process.

The certificate will enable the candidate to register with the Building Safety Regulator (BSR) for a period of four years. The certificate will expire four years from the issue date, therefore candidates will need to re-engage with the BCCA scheme or other scheme on four yearly cycles.

7 Monitoring

Candidates who are registered through the BCCA scheme will need to upload their CPD record on an annual basis. In addition, we require submissions at six months intervals to enable observation of ongoing CPD being undertaken.

We will inform the Building Safety Regulator (BSR) of Candidates' who do not upload their CPD record within the specified time frame. The BSR may rescind registration as a Building Inspector if annual professional development is not recorded and or carried out.

8 CPD Support

The document sets out that candidates are assessed against the Learning Outcomes and Assessment Criteria of the qualification. Candidates are required to meet all of these requirements. These requirements have been specifically designed to address the BCoF requirements.

The scheme has been designed to allow for fair assessment of candidates in line with legislation found in the Equality Act 2010.
